Click on the link below: I posted this before in the Elite section but was inspired to move it to the Guides Section after someone made a suggestion to allow a sub-forum for people to request guides. (What many people don't know is that it's very possible to get the majority of Paid Guides for in fact for free, and that's how many of the people who post such guides in the Elite Guides Section find them. For those who know the search engine hack that allows you to get paid ebooks and access to paid member access forums, for free. There are a variety of methods available, but this PDF guide puts everything in one place, with explanations and examples to help you find what you want, without having to pay for it. (It is a PDF that is viewable in your browser) You can also download it here: It includes the following topics: Hide your IP while doing this - the meaning and a howto guideSite: domainname.comwebsitekeyname.pdf!RC: DC ++, Emule, Torrent and Linewire methodsUse the keyword Elite todomainname.robots.txt!nu!'. t!breception!nu!. thankyouThank you for your order + downloadA syntax error has occurred filetype:htmlGooglebot hackAnd more reason why I would recommend this ebook for beginners and users who want to learn this method is that it provides step by step guides to most of the methods, as well as examples, download links etc. A highlight is at the end he tells you how to get PayPal products for free too. - Even if you have to buy the method, use your imagination and you will be able to get it for free. Finally, if all else fails, you can check out - that's exactly what it says it is, and very cool! I personally would recommend hiding your IP or using a proxy (as per covered in the PDF guide I linked above) although in general it's not needed it's always better to be sure. Over n out! These ads disappear when you sign in. Interestingly, I've never really looked at it properly in the elite section. Seems good though! which areas does this work with? just as guides and membership or? CAPS LOCK IS THE BEST CC EVA! Originally Posted by 1mPan what areas does this work with? just as guides and membership or? I'm not sure how I could make this more obvious but I'll try. Many people sell online books or ebooks in a variety of things ranging from Weight Loss to WoW gold guides like World Of Warcraft Gold Guide Free WOW Gold Guide World Of Warcraft Guide | World Of Warcraft Mastery | Tot Dugi's Ultimate World of Warcraft Guide | UltimateWoWGuide.com Asking You to Pay Ridiculous Amounts of Real Life Life in exchange for their information. But sometimes there are loopholes in the system that were when you have finished buying your guide, they give you a link to a page where you enter your email address and they then email you a download link. Now if you can find the URL of that page asking you to enter your email address, anyone can enter any working email address and have the download link emailed to them. Etc etc. Thanks for explaining, now I get it Thanks! CAPS LOCK IS THE BEST CC EVA! Thank you. Unholy! +rope for sure! I've been looking for hard ways to how to do this without any luck.
